Wednesday Nov 5, 2025 Prof. Powell OH 2-3pm

Agenda:

- For communicating with our stakeholder in particular Professor and TA since they also play the role of the ones grading, how often should we reach out to, in OH, after class, slack, and beyond user questions would it be showing the current progress ?
- For Github repo what's the best way to structure the GitHub to also account for meeting?
 - Wiki for github, understand
 - Put name of PR and it will auto linking
 - Doc in repo vs wiki
 - Wiki: meeting notes,
 - Repo: ADR
 - Reproducible project would require documentation
 - Add man to keep all meeting notes
 - Parallel wiki better
- Would rather be a course owner?
- In cse210, url and as long as you have a ucsd email it lets you in
 - So instead of workspace its a course?
 - Extension students without ucsd emails (or other university)
 - So manually add nonucsd emails to
 - **restrict** domains or not depends on staff
 - For staff you need to add them manually and give them a role
- Instances?
 - 1 conductor one class
 - 1 class spring 25, 26
 - 1 conductor but multiple quarters or even same quarter teaching at diff institutions
 - Would it be the same domain name?
 - Need systems diagram
 - Look at url and work backwards
 - Domain or c name concept
 - Multi tenancy
 - Clerk, offzero are vendors for user management,
- Has to be a responsive design
- Pulse check: interaction student-professor, like an activity log
 - Everyone interacting and being involved at least once
- Walking Skeleton
- Have pop ups near the location where the cursor is currently at

Attendance:

- Andrew Pan
- Audria Montalvo
- Abhishek Dhaka
- Boqi Zhu
