

Sunday Oct 26, 2025 4pm-5pm

Before the Meeting:

- Read over both the resources for Project 1 [miro](#) & [craft](#)
 - The professor suggested we all individually come up with our theories of what the user would like from our tool and focus on being empathetic to the user.
 - User: TA, professor, team lead, tutor, all students, etc
 - PLEASE ADD UR THEORIES UNDER 'INDIVIDUAL NOTES' *check on the right*

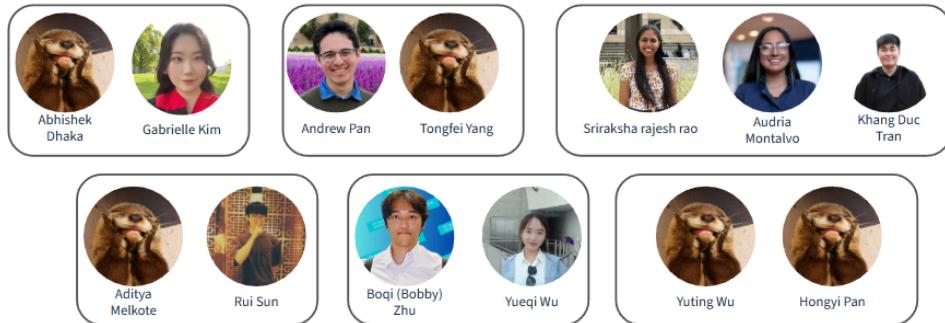

A screenshot of a digital whiteboard interface. At the top left is a dropdown menu with a person icon and the text "Individual (ur) Notes". Below this is a list of names, each preceded by a small square icon:

- Abhishek
- Andrew
- Gabrielle
- Rui
- Sriraksha
- Boqi
- Aditya

- You can also add any other notes beyond the user theories

Partners for this week

Pair Programmers (Code and think on the logic together)

During Meeting:

- Project Overview: miro and craft
- ~~'Announcements'~~
 - Some Ideas: We can have a lead for each 'main tasks' and everyone can still add their input
 - Ex: User Study lead throughout the quarter
 - Heavy on learning from each other
 - Heavy on everyone getting to contribute
- Pair Programming
- ~~Everyone can share their thoughts on the user theories~~
- ~~Monday Meeting with TA~~
 - Audria can't make it
 - Would anyone be available to join -optional
- ~~Wednesday team meeting and going through Prof OH~~

- ~~We all need to go do at least 1 user study interview/survey~~

Attendance:

- Audria Montalvo
- Andrew Pan
- Gabrielle Kim
- Abhishek Dhaka
- Rui Sun
- Duc Khang Tran
- Yeuqi Wu
- Hongyi Pan
- Bobby Zhu
- Aditya Melkote
