 - Buttons on top, three main columns stack
 - Drop down too big

Student

Attendance:

- Audria
- Tongfei
- Yueqi

Monday Dec 1, 2025 TA Meeting 4-4:30pm

Agenda:

- Elastic is ok for deployment
- For presentation what has been pushed will be considered
- Authentication: Sammed mentioned that we should support UCSD students and non UCSD students (i.e. extension students). Just double check the email with the roster.
- Go through the overview of the app with Sammed. He asked what pending items are left for the sprint.
- Sammed Feedback: Too many issues

Questions for Sammed:

- Is the code freeze deadline Weds December 10 11:59pm? Sammed said yes. NO CODE CHANGES OR DOCUMENTATION AFTER, it won't be accepted.
 - Recommends having last 2-3 days as a buffer
 - Better to have 2-3 complete features rather than 5-6 incomplete features
 - If you have partial feature, write a small note on the html page saying this feature is not complete

Attendance:

- Andrew
- Audria
- Peter
- Bobby
- Sriraksha
